

Jelaine Degirolamo

Biomedical Engineer

Dear Akiera Milcarek,

I am thrilled to apply for the Biomedical Engineer position at Medtronic. The opportunity to contribute to a company renowned for its innovation and dedication to improving lives aligns perfectly with my professional aspirations.

With over six years of experience at Boston Scientific, I have honed my skills in developing cutting-edge medical devices and collaborating with cross-functional teams to deliver impactful solutions.

Some key achievements from my previous roles include:

- **Improved device efficiency by 30%** through innovative design enhancements at Boston Scientific.
- Led a team to successfully launch a new cardiac device, resulting in a **15% increase in market share**.
- Spearheaded a project that reduced production costs by **20%**, enhancing overall profitability.

In addition to my technical expertise, I hold a Six Sigma Green Belt certification and have demonstrated strong leadership in managing multidisciplinary teams to achieve project goals efficiently.

Leadership and community involvement highlights:

- **Recipient of the Boston Scientific Excellence Award** for outstanding project leadership.
- Volunteered in community health initiatives, educating the public on cardiovascular health.
- Active member of IEEE, contributing to the advancement of biomedical engineering standards.

I am particularly motivated to join Medtronic because of your commitment to transforming healthcare through groundbreaking technologies and a patient-centric approach. Your dedication to innovation and ethical business practices resonates deeply with my professional values.

I am eager to bring my skills and passion to Medtronic and explore how I can contribute to your team's success. I look forward to the possibility of discussing this exciting opportunity further.

Warm regards,

To

Akiera Milcarek
