

Ronica Aslan

Civil Engineer

Dear Anny Noran,

I am thrilled to apply for the Civil Engineer position at AECOM. The prospect of contributing to a company renowned for its innovative infrastructure solutions excites me beyond measure.

With over eight years of experience at Bechtel, I have honed my skills in managing large-scale projects, ensuring quality and efficiency from concept to completion.

Some key achievements from my previous roles include:

- Spearheading a team that reduced construction time by **20%** on the Metro Expansion Project.
- Leading the implementation of sustainable practices that resulted in **15% cost savings** at Bechtel.
- Successfully managing a cross-functional team to deliver a \$50 million highway project **under budget**.

Throughout my career, I have developed strong leadership skills, enhanced by my certification in Project Management. My ability to navigate complex projects aligns with AECOM's commitment to excellence.

Additional qualifications include:

- **Certified Professional Engineer** with a focus on urban infrastructure development.
- Recipient of the Bechtel Excellence Award for outstanding project leadership.
- Active member of the American Society of Civil Engineers, promoting community engagement and innovation.

The alignment of AECOM's mission with sustainable development and community-focused projects resonates deeply with my professional ethos. I am particularly impressed by your recent contributions to renewable energy infrastructure, which I believe represents the future of engineering.

I am eager to bring my expertise and passion to AECOM and look forward to discussing how I can contribute to your esteemed projects. Thank you for considering my application.

Warm regards,

To

Anny Noran
