

Michi Breakstone

Computer Programmer

Dear Christie Ratti,

I am thrilled to apply for the Computer Programmer role at Google, an opportunity that perfectly aligns with my passion for innovative tech solutions and my desire to contribute to a leading-edge team.

With over seven years of experience at Microsoft, I've honed my skills in software development and project management, consistently delivering high-quality results that drive business success.

Some key achievements from my previous roles include:

- Spearheaded a project at Microsoft that led to a **25% increase in system efficiency**, enhancing user experience across the platform.
- Developed a critical software module that **reduced processing time by 40%**, directly impacting customer satisfaction.
- Led a team of five programmers in creating a new application, resulting in a **20% boost in product adoption**.

In addition to my programming expertise, I hold a certification in cloud computing and have a proven track record of leading cross-functional teams to success.

Additional qualifications include:

- Certified in **AWS Solutions Architect**, demonstrating advanced cloud knowledge.
- Awarded the Microsoft Innovation Award for a project that significantly improved data analytics.
- Actively participated in community tech workshops, fostering a passion for coding among young learners.

Google's commitment to fostering a culture of innovation and sustainability resonates deeply with me. I am particularly inspired by your recent initiatives in AI and renewable energy, which align with my values and drive to make a positive impact through technology.

I am eager to bring my skills and experience to Google and am excited about the potential to contribute to your dynamic team. I look forward to the opportunity for further discussion.

Warm regards,

To

Christie Ratti
