

Yatziry Angeloni

Data Analyst

Dear Annemarie Wadzinski,

I am thrilled to apply for the Data Analyst role at Google. The prospect of contributing to a company renowned for its innovation and impact on the global stage excites me beyond measure.

With over five years of experience at Amazon, I honed my skills in data-driven decision-making and strategic analysis, consistently driving business performance and efficiency.

Some key achievements from my previous roles include:

- Spearheaded a cross-functional team at Amazon that led to a **20% increase in data processing efficiency**, significantly optimizing operational workflows.
- Developed a predictive analytics model for the logistics department, resulting in a **15% reduction in delivery delays**.
- Implemented a customer segmentation strategy that boosted targeted marketing efforts, leading to a **25% rise in customer retention**.
- Collaborated on an AI-driven project that enhanced inventory management accuracy by **18%**.

In addition to my analytical expertise, I hold certifications in advanced data visualization techniques and have led several workshops on data storytelling, empowering teams to leverage insights effectively.

Leadership and community involvement highlights:

- **Certified Data Analyst** with a specialization in machine learning applications.
- Awarded the Amazon Innovator of the Year for pioneering data solutions.
- Volunteered as a mentor for underrepresented groups in tech, fostering diversity and inclusion.

Google's commitment to fostering global connectivity and its emphasis on sustainability resonate deeply with my values. I am particularly inspired by your recent work on AI ethics, and I am eager to contribute to projects that shape the future of technology for the better.

I am enthusiastic about the possibility of discussing how my background, skills, and passions align with the goals of Google. Thank you for considering my application.

Warm regards,

To

Annemarie Wadzinski
