

Latessa Plasencia

Software Engineer

Dear Dannette Feese,

I am thrilled to apply for the Software Engineer position at Google. The prospect of contributing to a company renowned for its innovation and commitment to technology excites me immensely.

With over seven years of experience at Microsoft, I have honed my skills in software development and project management, consistently driving forward-thinking solutions.

Some key achievements from my previous roles include:

- At Microsoft, led a cross-functional team to develop a cloud-based application, resulting in a **25% increase in user engagement**.
- Spearheaded the integration of AI tools in the Office suite, improving efficiency by **30%**.
- Developed a security protocol that reduced data breach incidents by **40%**.
- Collaborated on the Azure team to enhance system scalability, achieving a **50% reduction in operational costs**.

In addition to my technical expertise, I hold a certification in Agile methodologies and have a knack for leadership, having mentored junior engineers to nurture their growth.

Additional qualifications include:

- **Certified Kubernetes Administrator**, demonstrating my proficiency in container orchestration.
- Awarded the Microsoft Gold Star for Excellence in Innovation.
- Volunteer tech lead for a community coding initiative, fostering tech skills among underprivileged youth.

Google's mission to organize the world's information and make it universally accessible aligns perfectly with my passion for developing impactful technology. The company's commitment to sustainability and ethical AI resonates deeply with my personal values.

I am eager to bring my experience and enthusiasm to Google and explore how I can contribute to your visionary projects. I look forward to the possibility of discussing this exciting opportunity further.

Best regards,

To

Dannette Feese
