

Shima Morrie

Software Engineer

Dear Hadassah Pereau,

I am thrilled to apply for the Software Engineer role at Google, a company that stands at the forefront of technological innovation. The opportunity to contribute to such a dynamic team is incredibly exciting.

Bringing over six years of experience from my tenure at Microsoft, I've honed my skills in software development and team collaboration, driving impactful projects to success.

Some key achievements from my previous roles include:

- Spearheaded a team at Microsoft to develop a cloud-based solution that improved system efficiency by **45%**.
- Designed and implemented a security feature that reduced vulnerabilities by **30%**, enhancing user trust and compliance.
- Mentored junior developers, fostering a collaborative environment that led to a **20%** increase in team productivity.
- Led a cross-functional project that integrated AI tools, streamlining processes and cutting costs by **15%**.

Additionally, my expertise extends to advanced proficiency in Python and Java, alongside a proven track record of leadership in agile environments.

Leadership and community involvement highlights:

- **Certified Scrum Master**, demonstrating my commitment to agile methodologies and team improvement.
- Recipient of the "Innovator of the Year" award at Microsoft for groundbreaking work in AI integration.
- Active participant in tech community workshops, advocating for diversity in STEM fields.

Google's mission to organize the world's information and make it universally accessible and useful deeply resonates with my own values. The company's recent advancements in AI and commitment to sustainability inspire me, as they align with my passion for using technology to create meaningful change.

I am eager to bring my skills and experiences to Google, contributing to your team's success. I look forward to the possibility of discussing how I can support your initiatives further.

Warm regards,

To

Hadassah Pereau
