

Ronnette Dileone

Web Developer

Dear Gurneet Windom,

I am thrilled to express my interest in the Web Developer role at Google, a company renowned for its innovation and commitment to excellence.

With over five years of experience as a web developer at Meta, I have honed my skills in creating dynamic, user-centric applications that drive engagement and efficiency.

Some key achievements from my previous roles include:

- Developed a **responsive web application** that increased user engagement by 30% for Meta's internal tools team.
- Led a cross-functional team in redesigning a critical platform, resulting in a **25% improvement in load times**.
- Implemented advanced security protocols, reducing **vulnerability incidents by 40%** across the project.

In addition to technical skills, I hold certifications in both advanced JavaScript frameworks and cloud technologies, enriching my ability to deliver robust solutions.

Leadership and community involvement highlights:

- **Certified Scrum Master**, leading agile teams to deliver projects on time and within scope.
- Awarded Meta's Innovation Award for pioneering a new feature that improved user satisfaction.
- Volunteered as a mentor for coding boot camps, fostering the next generation of web developers.

Google's mission to organize the world's information and make it universally accessible deeply resonates with me. I admire your initiatives in sustainability and AI ethics, aligning perfectly with my values of innovation and responsible tech development.

I am eager to bring my skills and passion to Google's team and would welcome the opportunity to discuss how I can contribute to your exciting projects.

Warm regards,

To

Gurneet Windom
