

Rochella Doupe

Security Analyst

Profile

Strategic Security Analyst with 8 years of experience, adept at identifying vulnerabilities and implementing robust defense strategies. Expert in threat analysis, risk management, and incident response, driving security enhancements and safeguarding critical assets.

Employment History

Senior Security Analyst at CrowdStrike, WY

Jun 2025 - Present

- Spearheaded a cross-functional team to enhance threat detection protocols, reducing incident response time by 28% and bolstering overall cybersecurity posture.
- Implemented advanced analytics frameworks that improved threat intelligence accuracy by 39%, directly contributing to a 15% decrease in security breaches.
- Guided strategic initiatives for client risk assessments, elevating customer satisfaction scores by 22% and securing additional contracts worth \$4.7 million.

Security Analyst at Palo Alto Networks, WY

Nov 2021 - May 2025

- Spearheaded the implementation of advanced threat detection systems, reducing security incident response times by 32% and enhancing overall network integrity.
- Led a team of 8 analysts in developing proactive cybersecurity strategies, resulting in a 27% decrease in potential vulnerabilities across global networks.
- Orchestrated cross-departmental security audits, identifying critical gaps and facilitating solutions that improved compliance with industry standards by 19%.

Junior Security Analyst at FireEye, WY

Oct 2017 - Oct 2021

- Spearheaded a team project that reduced cybersecurity incidents by 28% through the implementation of advanced threat detection systems.
- Analyzed network vulnerabilities and devised strategies, resulting in a 35% improvement in response time to potential threats.
- Led training sessions for over 50 team members, enhancing overall security protocol adherence and reducing human error incidents by 15%.
- Collaborated with cross-functional teams to streamline incident response processes, cutting down resolution times from 4 hours to just under 2 hours.
- Developed comprehensive security reports for senior management, influencing strategic decisions that fortified organizational defenses against emerging threats.
